VILLA CAVICIANA

"We didn't make it easy for the project team. Our wine and delicacies are produced, stored and administered in Italy. Our sales and distribution are based in Germany, where there is also has a warehouse. All of these aspects had to be considered when introducing the new stock management system. Added to this were the various tax and sales tax laws to be borne in mind with bookkeeping and financial reports. The specialists at MBC excelled at implementing our project and are really committed to assisting our company. We receive the best advice."

## Be Smart. Go Zug.

Flexibility for company-related actions is important in many regards and needs more and more room when groundbreaking decisions must be made. In order to offer our clients a variety of options, we have designed our domicile services.

It is possible to relocate your premises to Switzerland or within Switzerland to the more tax-favorable Cantons of Zug and Schwyz.

We provide you with the on-site infrastructure (workplaces and conference rooms). If desired, we can also take over corporate administration with a secretarial service, mail forwarding, administration and much more. Contact us, we would be happy to help you out!

gic tax planning. That is why we do not only complete your tax return, but rather we also offer support and consultation beyond this.
