Recruiting, personnel management and administration

We are convinced that permanent success is only achievable with the right team. However, it is not a simple task to find fitting employees and permanently fascinate them for your company.

For the best results, simply use our personnel services. We cover a multitude of services specifically tailored to your company's needs.

Recruiting

Job offers should specifically target people that will sustainably improve your company. To make this happen, MBC's team actively supports you in searching for and selecting fitting applicants. We provide experts and executives that are a perfect fit in every aspect. Just test our service when you have your next vacancy.

Personnel management

In our complex and interconnected world of work and ever increasing expectations of mobility and flexibility, there are also more and more challenges and problems for those working in the field of human resources. But that should not stop you, as we are at our client's side and assist and advice you even in turbulent times.

Personnel administration

Administration is a must, albeit an oftentimes time-consuming and extensive one. You do not need to deal with employment contracts, the current situation of social insurances and payroll accounting on your own. Just delegate selected tasks to the specialists of MBC. And you can concentrate on what really matters.
